

2009/2010 AFV Buyers' Guide

Get your copy today for only \$99!

The 2009/2010 AFV Buyers' Guide has been an overwhelming success! Created by AFVi in response to fleets' requests for one reliable and complete source of currently available alternative fuel and advanced technologies to help make purchasing decisions easier.

The Buyers' Guide has had fleets throughout the country scrambling for a copy, as it serves as the single source for alternative fuel vehicle products and services. The Buyers' Guide includes:

- Vehicle specifications and photos
- Contact information for questions or to place your order
- Directory of AFVi's industry partner to help with purchase decisions

Only a few copies remain...get yours today before they are gone for only \$99, plus \$5.95 shipping and handling. And as an added bonus, when you purchase the Buyers' Guide, you'll receive your choice of either a free registration to the rebroadcast of the Web Workshop, Greening Your Fleet: A Proven Approach to Buying AFVs for Your Fleet or a DVD of the Alternative Fuels & Vehicles National Conference + Expo 2009 speaker presentations and videos.

- This 2009/2010 AFV Buyers' Guide is produced courtesy of Alternative Fuel Vehicle Institute (AFVi) to provide fleet managers, policymakers, alternative fuel industry participants, and other interested parties with an overview of alternative fuel vehicles and advanced technology products currently available in the United States.
- Vehicle information was compiled from multiple sources, including the original equipment manufacturers (OEM), OEM websites and promotional literature. Best efforts were made to collect information from all manufacturers offering commercially available vehicles with alternative fuel and advanced technology options. However, some manufacturers and products may not appear in the Guide.
- This edition includes vehicle specifications for the 2009/2010 model year, unless otherwise noted. The information is as accurate as the information available at print time. All vehicle specifications are subject to change, without notice, at anytime per the right of the manufacturer. AFVi is not responsible for vehicle specification changes made by the manufacturer. AFVi strongly urges you to contact the manufacturer for the most up-to-date vehicle information before making any final purchase decisions.
